

BETTER TONE HAD ON MARKET; MORE CONFIDENCE SEEN

Coppers and Metals Were the Feature of the Operations. War Issues Were mainly Irregular in the Session.

NEW YORK, Feb. 18.—Gradual and general recoveries from the low levels of the early week were registered. Trading was dull and subject to minor reversals in the forenoon. The undertone was more confident and stable. Coppers and other metals were the feature of the operations. Contrary to the usual course the war issues were mainly irregular. They came forward in the later dealings. The automobile group was under intermittent pressure, likewise Petroleum, American Woolens and other obscure specialties, but sugars, United Fruit, Mercantile Marine and American Tobacco proved more than an offset.

Traders for long accounts were encouraged by the firmness in rails. United States Steel was moderately active but strong in connection with forecasts of record breaking earnings for the current quarter. Total sales were \$25,000,000.

Bonds responded to the improved tone in stocks. Trading was nominal. Total sales were \$3,270,000.

(By L. J. Overlock)
BOSTON, Feb. 18.—It certainly is a most peculiar situation because the improvement in general is now being reflected to a greater security market. People in general believe that there is something wrong with general conditions but they forget the most difficult problems are being worked out by the big interests. There has been no attempt made to inaugurate a bull speculation, there has been no encouragement offered to the public, trade reports, however, continue very optimistic. There is a forward movement in business, especially in metals, these have always been recognized as the barometer. The zinc stocks at the moment are most prominent in the active issues and have made great gains this week. The buying movement is sure to spread to the coppers and would buy them at this level. Copper Range offers a very attractive purchase and think it will sell at very much higher prices.

Metal 28 @ 30.

The President sends his report on the Mexican situation to the Senate but withholds certain diplomatic documents demanded in the Fall resolution.

The So. Pac. orders 8,100 freight cars.

Sir George Paiss says German financing difficulties are bringing end of war appreciably nearer.

Daniel G. Reid and other directors of defunct Rock-Island have agreed to turn over \$750,000 to the receivers in settlement of claims against them and the offer has been accepted.

Up to the close of business last night subscriptions had been received for \$40,000,000 of the \$50,000,000 Midvale Steel bonds.

Lansing demands absolute guarantees from Bernstorff that German submarine warfare will hereafter be conducted under established principles of international law.

ARMY DISPATCH.

BERLIN, Feb. 18.—Newspapers print a New York dispatch saying the torpedoing of armed merchantmen under Germany's recent memorandum was postponed until April. The Foreign Office says no such order was given. They are unable to explain the dispatch except on the conjecture that the American government is asking for a delay. No request for delay was received.

CONFER IN ENGLAND

LONDON, Feb. 18.—Count Wrangel the Swedish minister to England, is holding a series of conferences with Colonel House, the President's personal representative, on the detention of neutral mails by the belligerents and incidentally on the possible joint action by the neutrals to protect their rights. Sweden and Britain are impassive over the question. There was no hint of the proposed action by the United States.

ACTIVITY ON EAST FRONT

PETROGRAD, Feb. 18.—The enemy bombarded the western front on the Dvina and attacked Garbunovka, near Dvinsk, but were repulsed. Our airmen threw bombs in the enemy camp at Dvinsk in the Dnieper region we repulsed the enemy attack on the trenches at Nicheletsche with the help of the warships we occupied the fortified position of the Vitsebs River in the Armenian littoral region of the Black Sea. The ships shelled the retreating Turks.

FIVE HUNDRED ARE FACING STARVATION IN BAVISPE, SONORA

This Community Has Suffered More than Any Other in the State. No Money Had and no Crops in the Ground.

DOUGLAS, Feb. 18.—Five hundred families of Bavispe, Sonora, an isolated agricultural town 100 miles south-east of this city, are in immediate need of food, and something must be done at once to relieve their want. Realizing this fact, Gen. P. Elias Calles recently sent \$1,500 worth of flour, sugar, beans, calico and cotton, but it was not enough to last a week and the people are in urgent need of assistance.

This quantity gave a family of eight or ten 12 pounds of flour, 10 pounds of beans, 5 pounds of coffee, 5 pounds of sugar and 10 yards of calico. This amount, of course, did not last long.

Bavispe suffered more than most Sonora towns from the Villa invasion. It was ransacked by the Villa forces both on coming into the state and in departing. The first time the Villistas were decent. They stripped the town of things which they needed but they did not rob or mistreat the people. On the return, however, the Guadalupe Indians that comprised part of the column committed acts of beastliness that would be unbelievable of the information did not come from unquestionable sources.

The citizens were forced to give up everything they had in the way of money and jewelry. Even where the valuables had been hidden, the Villistas often were able to force a confession as to where they were placed. Some of the men retreated into the mountains and lived in caves until the marauders had left. Several women were beaten and rings stripped off their fingers. Even dishes and plows were smashed. A number of young women were carried away.

Even Gold is Worthless.

Carranza money is worth only three cents on the dollar there now and there is not even any of it to be had. As a matter of fact even gold is valueless down there now because there is nothing that can be bought with it. The spring wheat crop has been put in, but there was not enough seed to put in a third of a crop. It will be the beginning or the middle of July before this crop matures, and in the meantime the people are in desperate straits. Corn will not ripen until some time later, as it cannot be planted until March, and there is very little seed to be had anyhow.

Dr. B. J. Kone, for 36 years a resident of Bavispe and who has always enjoyed the greatest confidence of the biggest men in Sonora and Mexico, arrived here from Bavispe several days ago. He announced this morning that he would be glad to take charge of any food donated by the people of Douglas and Agua Prieta, and see that it will be properly distributed. He will make arrangements with some party in this city to hold it until it can be carried south or it can be done through the commissary department at Agua Prieta.

Will Send Up Burros.

"The people will be glad to send burros to this city or Agua Prieta to get the food," Dr. Kone said, "and I will see that it is distributed properly. Money will do them no good. It must be converted into food here first. What the people need is beans and flour and still more beans and flour. Sugar and coffee are needed but they are not so necessary. Clothes could be used but are not so urgently needed because the warm weather is coming on. Recently a man came to Douglas and bought \$100 worth of shoes which he sold to the people at cost. As far as shoes are concerned, however, the people can go barefoot. Cattle are almost all gone, but they do not require meat. They can shoot rabbits and catch meat. The acute need is staple groceries.

"It isn't the people who are in most need. The shiftless class who live by roaming about and petty thievery can take care of themselves. The people in whom I am interested are the working people and ranchers of the district. Some of the latter have been well to do, even wealthy, but now, for the first time, find themselves absolutely helpless in the face of want. Something has to be done by somebody at once if actual starvation is to be prevented."

PURSING BANDITS

TORREON, Feb. 18.—The government forces under Miguel Azuñe are reported as pursuing the bandits arriving yesterday from Sierra Prieta, looting ranches and carrying women away between that point and San Bernardino.

LEADERS WILL MEET.

WASHINGTON, Feb. 18.—President Wilson, Secretary Rodfield and Majority Leader Kitchin are expected to meet next week in conference on tentative plan for general revenue revision.

It is generally expected piecemeal legislation except in the sugar repeal Administration tariff commission and the bill for dye stuff proposals and other measures will be held until the preparedness program is out of the way.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months. I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

At all druggists.

SAY BRITON'S WIFE AIDS U. S. PLOTTER

"Dr." J. Grant Lyman.

"Dr." J. Grant Lyman, who is being sought by the federal authorities on a charge of swindling investors, a "mailing stock out of \$300,000 or \$400,000 by illegal use of the mails" under the name of John H. Palfen, has been engaged in German propaganda, according to a statement made by postoffice inspectors. He is charged he has been supplying Bismarck with information obtained from the wife of an English army officer, said to be a member of the British general staff serving in France.

Deafness Cannot Be Cured

In brief applications, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

J. C. HENNEY & CO., Toledo, Ohio.

Sold by Druggists. Take Hall's Family Pills for constipation.

STEEL BONDS SOLD

NEW YORK, Feb. 18.—The British government sold to the United States Steel Corporation in first mortgage bonds of that corporation. The bonds were held by the Carnegie Foundations of Scotland for trust fund purposes. They were sold by the foundations recently at the request of the government of Great Britain under the securities mobilization plan.

BIG NET EARNINGS.

COLORADO SPRINGS, Feb. 18.—Net earnings of \$11,000,000 for the last quarter of 1915 were shown in the report of the Ray Consolidated, Chino and Utah Copper companies. The three companies distributed dividends aggregating more than \$4,000,000 in the same quarter.

THEY REFUSE TO EAT

At periods in most children's lives they fail to relish their meals and refuse to eat even the delicacies prepared to tempt their appetites. They lack ambition, and growth seems impeded, which causes anxiety and worry.

To compel them to eat is a grave mistake, because nutrition is impaired. Healthful exercise in fresh air and sunshine is important, but equally important is a spoonful of Scott's Emulsion three times a day to feed the tissues and furnish food-energy to improve their blood, and nutrition and sharpen their appetites.

The highly concentrated medicinal food in Scott's Emulsion supplies the very elements children need to build up their strength. They relish Scott's—it is free from alcohol.

As sure to rise as the Sun

You can't always make everything "just so." Sometimes you will get in more shortening than usual; or make the batter a little thin; or it may not be convenient to put a cake in the oven the moment it is mixed; or your oven may not bake evenly and it is necessary to turn the pan around—none of these little uncertainties make the slightest difference in results if you use

KC BAKING POWDER

This modern, double-raise baking powder has unusual strength and is absolutely certain to raise your biscuits, cakes and pastry light and feathery. It generates an abundance of leavening gas both in the mixing bowl and in the oven. The raising is sustained until the dough is cooked through.

Housewives who use KC never have "bad luck" with their baking. Try KC at our risk. Your grocer will refund your money if you are not pleased in every way.

GAS
For Cooking and Heating

In addition to being an ideal fuel for cooking, Gas can be used as advantageously for heating water. With a little gas room heater you can quickly make any room of the house warm and cozy. Ideal for quick morning and evening service in the bath and bed room. Takes little space and can easily be carried from room to room. We are in a position to demonstrate at our store the different gas appliances for cooking—water heating and room heating.

BISBEE IMPROVEMENT CO.
